It's been years since I discovered this radio and I never get tired of it. It really puts happiness in the ears and a smile in the heart.

No sound ads, very few cuts, much more stable flow than going through a radio, remarkable sound quality, and finally, exceptional musical programming, acoustic music, lots of jazzy covers, the songs only come back rarely... Rest for the body and mind... To listen to preferably with very good equipment. Deserves 6 stars.

Beyond Borders

The drop in data consumption costs has made listening to online radio stations commonplace, allowing you to reach a global audience.

Launched in 2010, ABC Lounge Radio is one of the most popular French stations internationally. It has a strong following in Europe (Germany, Italy, Spain, Switzerland, Sweden, Denmark, Poland), as well as in Canada, Latin America, Eastern Europe (Russia) and Asia (Japan).

Regardless of the culture, it attracts and retains a wide range of listeners thanks to its unique positioning in this otherwise well-stocked world of digital audio.

I discovered ABC LOUNGE at my hairdressers. At the time I thought it was a playlist. Since then, I only listen to this radio. When I receive, it allows me to have VERY pleasant background music. Besides, everyone asks me «what's your music?»
